

## Important Risk Disclosure for TraHK

- The Tracker Fund of Hong Kong ("TraHK") is an exchange-traded fund designed to provide investment results that closely correspond to the performance of the Hang Seng Index ("Index") but its return may deviate from that of the Index.
- Investment involves risk, including risks of concentration of investments in shares in constituent companies of the Index, performance of the Index, economic, political and social developments, risks relating to investment in Hong Kong-listed stocks, and dual counter risks. Investors may lose part or all of their investments.
- Due to fees and expenses of TraHK, liquidity of the market and tracking strategy adopted by the Manager, TraHK's return may deviate from that of the Index.
- The trading price of TraHK may differ from the underlying net asset value ("NAV") per unit.
- TraHK may not be suitable for all investors. Investors should not invest based on this document only. Investors should read TraHK's prospectus including all risk factors, consider the product features, their own investment objectives, risk tolerance level and other factors, and seek independent financial and professional advice as appropriate prior to making any investment.
- The performance of TraHK, the NAV per unit and the performance by the manager and the trustee of their respective obligations are not guaranteed by the HKSAR Government. The HKSAR Government has given no guarantee or assurance that the investment objective of TraHK will be met.

# Hang Seng Index

## Why Hang Seng Index?

Publicly launched on 24 November 1969, the HSI has become the most widely quoted gauge of the Hong Kong stock market. The index includes the largest and most liquid stocks listed on the Main Board of the Stock Exchange of Hong Kong.

The existing 83 constituents<sup>2</sup> consist of the largest and most liquid stocks listed in HK

Constituents will be reviewed quarterly and freefloat-adjusted for investability representation

Highly representing the HK stock market (Market Value Coverage Ratio: 67.25%<sup>2</sup>; Market Turnover Coverage: 66.79%<sup>2</sup>)

## Hang Seng Index Covers a Full Range Of Industry Groups<sup>3</sup>

## Hang Seng Index Is Subject To Continuous Enhancement<sup>4</sup>

Measures of Continuous Enhancement <sup>*</sup>	Benefits
Fix the ultimate constituent number at 100	Better reflect the performance of the Hong Kong stock market with a more diversified industry distribution
Lower the weighting cap of constituent from 10% to 8%	Avoid abnormal volatility of weighted stocks
Select constituents by industry groups	Expand industrial representation
Shorten the listing history requirement to three months	Increase flexibility
Maintain a certain number of constituents classified as Hong Kong Companies	Ensure the representation of Hong Kong Companies
Changes to the Hang Seng Industry Classification System (HSICS) <sup>^</sup>	To enhance industry subsectors clarity and classification
