NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS

1 General Information

Tracker Fund of Hong Kong (the "Fund") is a unit trust which is governed by its Trust Deed dated 23rd October 1999, as amended or supplemented from time to time (the "Trust Deed"). The Fund is authorized by the Securities and Futures Commission of Hong Kong under Section 104(1) of the Hong Kong Securities and Futures Ordinance. The Fund is also listed on The Stock Exchange of Hong Kong Limited (a subsidiary of the Hong Kong Exchanges and Clearing Limited).

The manager and the trustee of the Fund are State Street Global Advisors Asia Limited (the "Manager") and State Street Bank and Trust Company (the "Trustee") respectively.

The Fund's objective is to provide investment results that closely correspond to the performance of the Hang Seng Index (the "Index").

2 Basis of preparation and accounting policies

These unaudited condensed interim financial statements for the six months ended 30th June 2017 have been prepared in accordance with Hong Kong Accounting Standard 34, "Interim financial reporting". The unaudited condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended 31st December 2016, which have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRS").

The accounting policies applied are consistent with those of the annual financial statements for the year ended 31st December 2016. Other amendments to HKFRS effective for the financial year ending 31st December 2017 are not expected to have a material impact on the Fund.

4 Income

(a) Transaction fee

Applications to create or redeem units are only made through brokers or dealers (acting either as principal or on behalf of clients) (the "Participating Dealers") which have executed participation agreements with the Manager, the Trustee, HK Conversion Agency Services Limited (the "Conversion Agent") and Hong Kong Securities Clearing Company ("HKSCC"). The Fund is entitled to receive a transaction fee of HK\$15,000 per total aggregate creation and redemption orders per day per Participating Dealer.

(b) Other income

Other income represents registrar charges levied on unitholders (other than HKSCC Nominees) who hold units registered in their own names as at each record date for the relevant distribution. Currently, these charges amount to the lower of HK\$80 per year per unitholder and the unitholder's actual distribution entitlement. Such charges are deducted on a half-yearly basis from the half-yearly distributions payable to the relevant unitholders.

5 Number of units in issue and net assets attributable to holders of redeemable units

The Fund's capital is represented by the net assets attributable to holders of redeemable units. Units are issued through an in-kind creation of an Index Basket with the remaining balances in cash, and are redeemed in-kind with the remaining balances in cash. Subscriptions and redemptions of units during the period are shown on the Condensed Statement of Changes in Net Assets Attributable to Holders of Redeemable Units. In accordance with the objectives and risk management policies, the Manager endeavors to invest in appropriate investments while maintaining sufficient liquidity to meet redemption, such liquidity being augmented by disposal of listed securities where necessary.

In accordance with the provisions of the Trust Deed, listed investments are stated at the last traded price on the valuation day for the purpose of determining net asset value per unit for creations and redemptions and for various fee calculations.

Net assets attributable to holders of redeemable units at last traded market prices represent a liability in the Condensed Statement of Net Assets, carried at the redemption amount that would be payable at the period end date if the unitholders exercised the right to redeem the units in the Fund.

6 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Hong Kong Securities and Futures Ordinance and is therefore exempted from profits tax under Sections 26A(1A) of the Hong Kong Inland Revenue Ordinance.

The Fund invests in H-shares and Red Chips shares of companies in the People's Republic of China ("PRC") listed on the Hong Kong Stock Exchange. Under the PRC Corporate Income Tax Law, the Fund may be liable to pay PRC tax on the capital gains realized in the trading of Red Chips which are determined as PRC Tax Resident Enterprises and H-shares. However, no provision was made for taxation from such gains in the financial statements as the Manager believes that the Fund can sustain a position for not filing a tax return based on the existing tax regulations and that the prevailing enforcement of China tax on capital gains is not probable.

Withholding tax was charged on dividend income received from H-shares and Red Chips during the periods ended 30th June 2017 and 2016.

10 Soft dollar practices

The Manager may effect transactions, provided that any such transaction is consistent with standards of “best execution”, by or through the agency of another person for the account of the Fund with whom the Manager or any of its Connected Persons have an arrangement under which that party will from time to time provide to or procure for the Manager or any of its Connected Persons goods, services or other benefits (such as research and advisory services, computer hardware associated with specialized software or research services and performance measures) the nature of which is such that their provision can reasonably be expected to benefit the Fund as a whole and may contribute to an improvement in the performance of the Fund. For the avoidance of doubt, such goods and services may not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employees’ salaries or direct money payments.

Since the inception of the Fund, the Manager had not participated in any soft dollar arrangements in respect of any transactions for the account of the Fund.

11 Investment limitations and prohibitions under the SFC Code

Pursuant to the SFC’s Guidelines for Regulating Index Tracking Exchange Traded Funds (the “ETF Guidelines”), the Manager is permitted to overweight the holdings of the Fund relative to its respective weightings in the underlying index, on the condition that the maximum extra weighting in any constituent securities will not exceed the maximum limit reasonably determined by the Fund and after consultation with the SFC. The maximum limit for each of the Fund has been disclosed in its respective prospectus.

The Manager has confirmed that the Fund has complied with this limit during the period ended 30th June 2017 and the year ended 31st December 2016.

The SFC Code allows the Fund to invest in constituent securities issued by a single issuer for more than 10% of the Fund’s net asset value provided that the investment is limited to any constituent securities that each accounts for more than 10% of the weighting of the Index and the Fund’s holding of any such constituent securities may not exceed their respective weightings in the Index (except as a result of changes in the composition of the Index and the excess is transitional and temporary in nature).

NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS (Continued)

11 Investment limitations and prohibitions under the SFC Code (Continued)

Constituent securities that account for more than 10% of the net asset value of the Fund as at 30th June 2017 were as follows:

	Respective weighting in the Index (%)		% of net asset value	
	30.06.2017	31.12.2016	30.06.2017	31.12.2016
HSBC Holdings plc	10.7	10.6	10.5	10.6
Tencent Holdings Ltd	10.3	10.2	10.2	10.1
Total	21.0	20.8	20.7	20.7

Except as disclosed above, there were no other securities that individually accounted for more than 10% of the net asset value of the Fund as at 30th June 2017 and 31st December 2016.

During the period ended 30th June 2017, the Hang Seng Index increased by 17.11% (for the period ended 30th June 2016: decreased by 5.11%), while the net asset value per unit of the Fund increased by 18.59% (for the period ended 30th June 2016: decreased by 3.45%).

12 Financial risk management

(a) Fair value estimation

The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the period end date.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The carrying value less impairment provision of other receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Fund for similar financial instruments.

NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS (Continued)

12 Financial risk management (Continued)

(a) Fair value estimation (Continued)

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorized in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes “observable” requires significant judgment by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Fund’s investments (by class) measured at fair value at 30th June 2017 and 31st December 2016.

All fair value measurements disclosed are recurring fair value measurements.
